UTILIZING JOC FOR CITY CONSTRUCTION PROJECTS

For all proposed projects please complete items 1 and 2 below. As appropriate, complete items 3, 4 and 5.

(Attach to the MOA)

1. Please describe the major features of the project:

The scope of work to be performed under this sub-order shall consist of widening the roadway of Ontario from 34 feet to 40 feet. In order to accomplish this the parkway on the south side of Ontario will be reduced from 20 feet to 14 feet. The work shall include the removal and replacement of pavement, curb and gutter, sidewalk, and catch basins.

2. Please explain why this project could not be bid using the City's traditional bid process and the need to use the JOC procurement system:

This project must be completed prior to October 1, 2003 in order to facilitate the opening of a new Hotel on the corner of St. Clair and Ontario. Therefore, the JOC Procurement System is the best means to perform this within the time frame.

Additionally, the J.O.C. procurement system is advantageous due to the minimal scope of work for this project.

3. If this project is a one trade project, please provide additional explanation of why it would be in the City's best interest to do the project under JOC:

Not Applicable

4. If it is anticipated that over 25% of the project will be non-prepriced, please provide an explanation on why JOC should be used:

Not Applicable

5. If some elements of the proposed JOC project scope of work are covered by City Term Agreements, these elements should be removed from the JOC project scope of work. If it is not desirable to do so, please explain:

Not Applicable
