# ★ PLANNING CONTEXT

Central Area Plan 2003

Central Area Action Plan 2009

- **Build great places**: The scale and density of new development pays attention to the effect on the neighborhood by stepping the massing to respond to nearby developments.
- **Create successful open spaces**: The state street façade is setback to align with the face of Viceroy Chicago revealing generous streetscape, opening-up and connecting with the historic Mariano park
- **Ensure a walkable environment throughout**: A generous sidewalk on Elm street preserves the view corridor to lake Michigan. The street level façade is faceted, breaking down the street wall into smaller pedestrian scale elements.
- **Maintain the diversity of the central area**: This mixed-use building brings new residential and retail to a downtown neighborhood already rich in diversity of land uses including office, retail, commercial, entertainment, residential, and civic uses.
- **Maintain a critical density**: This development brings 300 new residential units and 10,000-20,000 sf of new active retail to a site that was a low density, two story, single-use retail development.
- **Emphasize environmental sustainability**: Exceed energy code by 10%, 100 Yr detention, working landscapes, green roof 50-100%, indoor water use reduction 25%, proximity to transit, EV charging station/ readiness, CTA digital display, 80% waste diversion, basic bird protection.

# DPD RECOMMENDATION

DPD has concluded that this proposal is appropriate for this site and supports this amendment for the following reasons:

- ❖ The proposed change to PD 1465 to accommodate Medical Service as a permitted use is consistent with other zoning both adjacent to this site and in the immediate area;
- ❖ Promotes economically beneficial development patterns that are compatible with the character of the existing neighborhood (per 17-8-0103), as evidenced by the design of the project, and the fact that the proposed uses are in context with the character of the adjacent properties and meet the needs of the immediate community;
- ❖ The proposed development complies with the standards and guidelines of Section 17-8-0900 (17-13-0609-A, see above);
- ❖ Per 17-13-0308-C, the proposed development is compatible with surrounding developments in terms of land use, as well as, the density and scale of the physical structure.
- ❖ Per 17-13-0308-D, the proposed development is compatible with surrounding zoning.
- ❖ Per 17-13-0308-E, the public infrastructure facilities and City services will be adequate to serve the proposed development at the time of occupancy and the project will comply with the requirements for access in case of fire and other emergencies.
