INDEPENDENT AUDITORS' REPORT

The Honorable Richard M. Daley, Mayor,
and Members of the City Council
City of Chicago, Illinois

We have audited the accompanying basic financial statements of Chicago Midway International Airport (Midway) of the City of Chicago, Illinois (City) as of December 31, 2006 and 2005, and for the years then ended, listed in the foregoing table of contents. These financial statements are the responsibility of the City's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control over financial reporting for Midway. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

As discussed in Note 1, the basic financial statements referred to above present only Chicago Midway International Airport and are not intended to present the financial position of the City, the results of its operations, and its cash flows, in conformity with accounting principles generally accepted in the United States of America.

In our opinion, such basic financial statements present fairly, in all material respects, the financial position of Chicago Midway International Airport as of December 31, 2006 and 2005, and the results of its operations and its cash flows for the years then ended, in conformity with accounting principles generally accepted in the United States of America.

The Management's Discussion and Analysis as listed in the foregoing table of contents is not a required part of the basic financial statements, but is supplementary information required by the Governmental Accounting Standards Board. The Management's Discussion and Analysis is the responsibility of the City's management. We have applied certain limited procedures that consisted principally of inquiries of management regarding methods of measurement and presentation of the required supplementary information. However, we did not audit the information and we express no opinion or any other form of assurance on it.

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The additional information listed in the foregoing table of contents, which is also the responsibility of the City's management, is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such additional information has been subjected to the auditing procedures applied in our audits of the financial statements and, in our opinion, is fairly presented, in all material respects, when considered in relation to the financial statements taken as a whole.

The statistical information as listed in the forgoing table of contents is also presented for the purpose of additional analysis and is not a required part of the basic financial statements. Such statistical information has not been subject to auditing procedures and, accordingly, we do not express an opinion on it.

Deloitte & Touche LLP

MANAGEMENT'S DISCUSSION AND ANALYSIS

($ IN THOUSANDS)

This following discussion and analysis of the Airport's performance provides an introduction and overview of the Airport's financial activities for the fiscal years ended December 31, 2006 and 2005. Please read this discussion in conjunction with the Airport's basic financial statements and the notes to basic financial statements following this section.

FINANCIAL HIGHLIGHTS

2006

- Operating revenues for 2006 increased by $13,342 compared to prior year operating revenues.

- Operating expenses before depreciation and amortization increased by $9,156 compared to 2005, primarily due to increased repairs and maintenance, professional and engineering and other operating expenses.

- The Airport's total net assets at December 31, 2006 were $295,538. This is a decrease of $12,814 compared to total net assets at December 31, 2005.

- Capital asset additions for 2006 were $88,881 (38.2 percent increase over 2005), principally due to land acquisition, terminal improvements, security enhancements, parking, runway, heating and refrigeration improvements.

2005

- Operating revenues for 2005 increased by $6,620 compared to prior year operating revenues. This increase is principally due to increased landing fees and other rentals and fueling system charges.

- Operating expenses before depreciation and amortization increased by $6,696 compared to 2004, primarily due to increased repairs and maintenance, professional and engineering and other operating expenses.

- The Airport's total net assets at December 31, 2005 were $308,352. This is a decrease of $27,568 compared to total net assets at December 31, 2004.

- Capital asset additions for 2005 were $64,319, principally due to the Terminal Development Program construction activities.

- Total outstanding revenue bonds, net of unamortized discount and loss on refunding, at December 31, 2005 were $1,259,817.

OVERVIEW OF THE BASIC FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction to the Airport's basic financial statements. The Airport's basic financial statements are comprised of the financial statements and the notes to financial statements. In addition to the basic financial statements this report also presents additional and statistical information after the notes to basic financial statements.

The Statements of Net Assets present all of the Airport's assets and liabilities using the accrual basis of accounting, which is similar to the accounting used by private-sector companies. The difference between assets and liabilities is reported as net assets. The increase or decrease in net assets may serve as an indicator, over time, whether the Airport's financial position is improving or deteriorating. However, the consideration of other non-financial factors such as changes within the airline industry may be necessary in the assessment of overall financial position and health of the Airport.

The Statements of Revenues, Expenses and Changes in Net Assets present all current fiscal year revenues and expenses, regardless of when cash is received or paid, and the ensuing change in net assets.

The Statements of Cash Flows report how cash and cash equivalents are provided and used by the Airport's operating, capital financing and investing activities. These statements are prepared on a cash basis and present the cash received and disbursed, the net increase or decrease in cash and cash equivalents for the year and the cash and cash equivalents balance at year-end.

The Notes to Basic Financial Statements are an integral part of the basic financial statements; accordingly, such disclosures are essential to a full understanding of the information provided in the basic financial statements.

In addition to the basic financial statements, this report includes Additional and Statistical Information. The Additional Information section presents debt service coverage calculations and the Statistical Information section includes certain unaudited information related to the Airport's historical financial and non-financial operating results and capital activities.

FINANCIAL ANALYSIS

Landing fees and terminal area use charges and fueling system charges are assessed to the various airlines throughout each fiscal year based on estimated rates. Such rates are designed to yield collections from airlines adequate to cover certain operating expenses and required debt service and fund deposits as determined under provisions of the Airport Use Agreement and Facilities Leases (Use Agreement). Incremental amounts due from the airlines arise when amounts assessed, based on the estimated rates used during the year, are less than actual expenses and required deposits for the year. Such incremental amounts due from airlines are included in accrued revenue. Incremental amounts due to the airlines arise when amounts assessed, based on the estimated rates used during the year, exceed actual expenses and required deposits for the year. Such incremental amounts due to airlines are included in deferred revenue. In the event that fund balance is not available to reduce net airline requirements in future years, airline revenues would be increased as provided by the Use Agreement.

At December 31, 2006, the Airport's financial position continued to be strong with total assets of $1,677,611, total liabilities of $1,382,073 and net assets of $295,538. A comparative condensed summary of the Airport's net assets at December 31, 2006, 2005 and 2004 is as follows:

	Net Assets		
	2006	**2005**	**2004**
Current assets	$ 68,888	$ 79,249	$ 53,912
Noncurrent assets:			
Restricted and other assets	437,585	477,322	572,653
Capital assets — net	1,171,139	1,114,892	1,082,274
Total noncurrent assets	1,608,724	1,592,214	1,654,927
Total assets	$1,677,612	$1,671,463	$ 1,708,839
Current liabilities	$ 37,327	$ 44,270	$ 31,341
Noncurrent liabilities	1,344,747	1,318,841	1,341,578
Total liabilities	$1,382,074	$1,363,111	$ 1,372,919
Net assets:			
Invested in capital assets, net of related debt	$ 48,388	$ 73,843	$ 105,782
Restricted	215,589	199,531	207,566
Unrestricted	31,561	34,978	22,572
Total net assets	$ 295,538	$ 308,352	$ 335,920

2006

Current assets decreased by $10,361 (13.1 percent) due to decreased cash and cash equivalents at December 31, 2006. This decrease is primarily due to the payment of deferred revenue to the Signatory airlines during fiscal year 2006. The Airport's current ratio (current assets/current liabilities) at December 31, 2006 and 2005 was 1:85:1 and 1:79:1, respectively. Restricted and other assets decreased by $39,738 (8.3 percent) mainly due to the payment of construction costs and the use of capitalized interest and Passenger Facility Charges (PFC) for payments on debt service. Capital assets increased by $56,247 (5.0 percent) due principally to ongoing capital activities of the Capital Improvement Plan.

The decrease in current liabilities of $6,943 (15.7 percent) is related to the payment of deferred revenue ($6,599) to the Signatory airlines during 2006. Noncurrent liabilities increased by $25,905 (2.0 percent) in 2006 mainly due to the increases in accounts payable of $23,127 and notes payable of $10,269 offset by payment of revenue bonds payable of $6,341 during 2006.

Net assets may serve, over a period of time, a useful indicator of the Airport's financial position. At December 31, 2006, total net assets were $295,538, a decrease of $12,814 (4.2 percent) over 2005. Due to the residual Airport use agreement, this decrease is mainly due to the use of Airport fund balance to reduce net airline requirements.

2005

Current assets increased by $25,337 (47.0 percent) due to increased cash and cash equivalents and investment balances at December 31, 2005. This increase was primarily due to the collection of additional revenue, deferred revenue and advances on terminal rent offset by payments for accounts payable and due to other City funds. The Airport's current ratio (current assets/current liabilities) at December 31, 2005 and 2004 was 1.79:1 and 1.72:1, respectively. Restricted and other assets decreased by $95,331 (16.65 percent) mainly due to the payment of construction costs and the use of capitalized interest for payments on debt service. Capital assets increased by $32,618 (3.0 percent) due principally to ongoing capital activities of the Capital Improvement Plan and the Terminal Development Program.

The increase in current liabilities of $12,929 (41.2 percent) is directly related to the increased accounts payable ($4,578), due to other City funds liability ($1,664) and deferred revenue ($6,687). Noncurrent liabilities decreased by $22,737 (1.7 percent) mainly as a result of the reduced accounts payable of $17,869 and the payment of $7,425 of revenue bonds payable offset by a slight increase in interest payable at year-end.

Net assets may serve, over a period of time, a useful indicator of the Airport's financial position. At December 31, 2005, total net assets were $308,352, a decrease of $27,568 (8.2 percent) over 2004. Due to the residual Airport use agreement, this decrease is mainly due to the use of Airport fund balance to reduce net airline requirements.

The primary sources of Airport operating revenues are landing fees, terminal area use charges, rents and concession revenues as defined within the Airline Use Agreement and Facilities Lease. These revenues fund Airport operating expenses, fund deposits and net debt service requirements. A comparative condensed summary of the Airport's changes in net assets for the years ended December 31, 2006, 2005 and 2004 is as follows:

	Changes in Net Assets		
	2006	**2005**	**2004**
Operating revenues:			
Landing fees and terminal area uses charges	$ 42,638	$ 32,847	$ 29,299
Rents, concessions and other	62,932	59,381	56,309
Total operating revenues	105,570	92,228	85,608
Operating expenses:			
Salaries and wages	35,316	32,259	32,316
Repairs and maintenance	32,762	31,690	28,065
Professional and engineering	13,326	11,274	10,678
Other operating expenses	15,979	13,004	10,472
Depreciation and amortization	37,893	35,677	20,994
Total operating expenses	135,276	123,904	102,525
Operating loss	(29,706)	(31,676)	(16,917)
Nonoperating revenues	47,493	34,060	30,694
Nonoperating expenses	(52,818)	(48,035)	(36,603)
Capital grants	22,217	18,083	21,578
Decrease in net assets	$ (12,814)	$ (27,568)	$ (1,248)

2006

Landing fees and terminal area use charges for the years 2006 and 2005 were $42,638 and $32,847, respectively. Rents, concessions and other revenues were $62,932 and $59,381 for the years 2006 and 2005, respectively. The increase in 2006 operating revenues of $13,342 (14.5 percent) over 2005 was mainly due to increased landing fees, terminal area use charges and other rentals and concession revenues of $5,166, $6,203 and $1,973, respectively. Such increases were due to the residual Airport Use Agreement and Facilities Leases that require airline revenue to be recognized to the extent necessary to pay the Airport's operating and maintenance expenses, net debt service and fund deposit requirements, reduced by non-airline revenues.

Salaries and wages increased by $3,057 (9.5 percent) in 2006 compared to 2005. This increase is mainly due to negotiated contract wage increases (approximately $900), additional police overtime (approximately $700) as a result of an increased Orange security alert in October 2006 and additional indirect costs (approximately $980) charged to the Airport from the City's Cost Allocation Plan. The increase in repairs and maintenance of $1,072 (3.4 percent) is primarily due to increased property management fees of approximately $2,400, offset by reduced shuttle bus services of approximately $1,300. Professional and engineering expenses increased by $2,052 (18.2 percent) mainly due to increased parking management fees of approximately $400, additional professional fees related to the study of the privatization of Midway Airport of approximately $702, increased concession management fees of approximately $170 and increased computer professional service costs of approximately $250. Other operating expenses increased by $2,975 (2.3 percent) mainly due to vehicle acquisitions of approximately $4,000 during 2006 offset by reduced utility costs year over year of approximately $1,003. Depreciation and amortization expense increased $2,216 (6.2 percent) as a result of the increased capital assets due to the activities of the ongoing Capital Improvement Program.

Fiscal year 2006 nonoperating revenues of $47,493 are comprised mainly of passenger facility charges (PFC) revenue ($24,406), customer facility charges (CFC) revenue ($7,206) and interest income ($15,104). During 2006, nonoperating revenues increased by $13,433 principally due to increases in interest income ($7,238), CFC revenues ($5,081) and PFC revenue ($1,114). Interest income increased mainly due to higher interest rate yields on construction and debt service cash and investment trustee accounts. PFC revenues increased due to increased enplanement activity at the Airport.

Nonoperating expenses of $52,818 and $48,035 for the years 2006 and 2005, respectively, were comprised of PFC and bond interest expenses. The increase of $4,783 (10.0 percent) for 2006 over 2005 was mainly due to additional interest expense requirements due to bonds issued in 2004 and less capitalized interest captured as capital projects are completed.

Capital grants, mainly comprised of Federal grants, increased to $22,217 in 2006 from $18,083 in 2005, a 22.9 percent increase, as a result of when capital expenditures were incurred (revenue recognized) and thus became eligible for the related reimbursement from the Federal government.

2005

Landing fees and terminal area use charges for the years 2005 and 2004 were $32,847 and $29,299, respectively. Rents, concessions and other revenues were $59,381 and $56,309 for the years 2005 and 2004, respectively. The increase in 2005 operating revenues of $6,620 (7.7 percent) over 2004 was primarily due to an increase in terminal use charges and other rentals and concession revenues of approximately $5,400 and $1,200 respectively. Such increases were due to the residual Airport Use Agreement and Facilities Leases that require airline revenue to be recognized to the extent necessary to pay the Airport’s operating and maintenance expenses, net debt service and fund deposit requirements, reduced by non-airline revenues.

Salaries and wages remain flat in 2005 compared to 2004. The increase in repairs and maintenance of $3,625 (12.9 percent) was primarily due to increased shuttle bus service costs ($800), snow removal costs ($600), water reclamation fees ($400), airfield asphalt repairs ($400), property management costs ($200) and equipment repair and maintenance costs ($200). Professional and engineering expenses increased by $596 (5.6 percent) as a result of increased legal fees related to bankruptcies and parking management costs of approximately $250 and $350, respectively. Other operating expenses increased by $2,532 (24.2 percent) primarily due to increased insurance costs of approximately $300, increased gas and electric charges of $900 and $200, respectively, increased de-icer fluid costs of approximately $500, and increased provision for doubtful accounts of approximately $300. Depreciation and amortization expense increased $14,683 (69.9 percent) as a result of the increased capital assets due to activities of the Terminal Development Program.

Fiscal year 2005 nonoperating revenues of $34,060 are comprised mainly of passenger facility charges (PFC) revenue ($23,292), customer facility charges (CFC) revenue ($2,125) and interest income ($7,866). During 2005, nonoperating revenues increased by $3,366 principally due to the increased interest income of $3,979, increased CFC revenues of $2,125 offset by decreased PFC revenue of $2,733. Interest income increased mainly due to higher interest rate yields on construction and debt service cash and investment trustee accounts. PFC revenues decreased due to decreased passenger traffic at the airport.

Nonoperating expenses of $48,035 and $36,603 for the years 2005 and 2004, respectively, were comprised of PFC and bond interest expenses. The increase of $11,432 (31.2 percent) for 2005 over 2004 was mainly due to additional interest expense requirements due to bonds issued in 2004 and less capitalized interest captured as capital projects are completed.

Capital grants, mainly comprised of Federal grants, decreased to $18,083 in 2005 from $21,578 in 2004, a 16.2 percent decrease, as a result of when capital expenditures were incurred and thus became eligible for the related reimbursement.

A comparative summary of the Airport's cash flows for the years ended December 31, 2006, 2005 and 2004 is as follows:

	Cash Flows		
	2006	**2005**	**2004**
Cash from activities:			
Operating	$ 99	$ 15,115	$ 6,891
Capital and related financing	(109,849)	(83,262)	1,110
Investing	48,318	28,641	(43,507)
Net change in cash and cash equivalents	(61,432)	(39,506)	(35,506)
Cash and cash equivalents:			
Beginning of year	264,859	304,365	339,871
End of year	$ 203,427	$ 264,859	$ 304,365

2006

As of December 31, 2006 the Airport's available cash and cash equivalents of $203,427 decreased by $61,432 compared to $264,859 at December 31, 2005 due to positive flows of cash provided by operating and investing activities of $99 and $48,318, respectively, offset by the use of $109,849 for capital and related financing activities. Total cash and cash equivalents at December 31, 2006 were comprised of unrestricted and restricted cash and cash equivalents of $27,719 and $175,708, respectively

2005

As of December 31, 2005 the Airport's available cash and cash equivalents of $264,859 decreased by $39,506 compared to $304,365 at December 31, 2004 due to positive flows of cash provided by operating and investing activities of $15,115 and $28,641, respectively, offset by the use of $83,262 for capital and related financing activities. Total cash and cash equivalents at December 31, 2005 were comprised of unrestricted and restricted cash and cash equivalents of $53,281 and $211,578, respectively.

CAPITAL ASSET AND DEBT ADMINISTRATION

At the end of 2006 and 2005 the Airport had $1,171,139 and $1,114,892, respectively, invested in net capital assets. During 2006, the Airport had additions of $88,880 related to capital activities. This included $1,716 for land acquisition and the balance of $87,165 for construction projects relating to terminal improvements, security enhancements, parking, runway, heating and refrigeration improvements.

During 2006, completed projects totaling $113,463 were transferred from construction in progress to applicable buildings and other facilities capital account. These major completed projects were related to roadway rehab, parking and terminal improvements.

The Airport's capital assets at December 31, 2006, 2005 and 2004 are summarized as follows:

	Capital Assets at Year-end		
	2006	**2005**	**2004**
Capital assets not depreciated:			
Land	$ 102,619	$ 100,903	$ 100,840
Contruction in progress	88,608	114,906	87,678
Total capital assets not depreciated	191,227	215,809	188,518
Capital assets depreciated:			
Buildings and other facilities	1,157,845	1,044,383	1,007,355
Less accumulated depreciation for:			
Buildings and other facilities	(177,933)	(145,300)	(113,599)
Total capital assets depreciated — net	979,912	899,083	893,756
Total property and facilities — net	$ 1,171,139	$ 1,114,892	$ 1,082,274

The Airport's capital activities are funded through Airport revenue bonds, Federal and State grants, passenger facility charges (PFC) and Airport revenue. Additional information on the Airport's capital assets is presented in Note 5 of the notes to the financial statements.

The Airport issued $10,269 of Commercial Paper Notes during 2006 having an interest rate of 3.6 percent with a maturity date of June 6, 2007. Note proceeds may be used to finance portions of the costs of authorized airport projects and to repay the expenses of issuing the notes. The Airport's revenue bonds and notes payable at December 31, 2006 and 2005 are summarized as follows:

	Outstanding Debt at Year-end		
	2006	**2005**	**2004**
Revenue bonds and notes payable	$ 1,282,384	$ 1,279,455	$ 1,286,880
Unamortized:			
Bond discount	(10,197)	(10,681)	(11,288)
Deferred loss on refunding	(8,442)	(8,957)	(10,107)
	1,263,745	1,259,817	1,265,485
Current bonds payable	(13,620)	(7,340)	(7,425)
Total long-term revenue bonds and notes payeble – net	$ 1,250,125	$ 1,252,477	$ 1,258,060

Additional information on the Airport's long-term debt is presented in Note 4 of the notes to basic financial statements and in the Statistical Information section of this report.

The Airport's revenue bonds at December 31, 2006 and 2005 had credit ratings with each of the three major rating agencies as follows:

	Moody's Investor Services	Standard & Poor's	Fitch Ratings
First Lien Chicago Midway Revenue Bonds	A2	A	A+
Second Lien Chicago Midway Revenue Bonds	A3	A-	A

At December 31, 2006 and 2005 the Airport was in compliance with the debt covenants as stated within the Master Trust Indentures.

ECONOMIC FACTORS AND NEXT YEAR RATES AND CHARGES

The airlines using Chicago Midway International Airport generally provide low fare, point-to-point origination and destination passenger service. During 2006 and 2005, Southwest Airlines accounted for 72.5 and 63.6 percent, respectively, of total enplanements at the Airport.

Based on the Airport's rates and charges for fiscal year 2007, total budgeted operating and maintenance expenses are projected at $104,665 and total net debt service and fund deposit requirements are projected at $11,699. Additionally, 2007 non-airline and non-signatory revenues are budgeted for $59,341, resulting in a net airline requirement of $57,023 that will be funded through landing fees, terminal area use charges, and fueling system charges.

REQUESTS FOR INFORMATION

This financial report is designed to provide the reader with a general overview of the Airport's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the City of Chicago Comptroller's Office.

SUPPLEMENTAL DISCLOSURE OF NONCASH ITEMS:
Property additions in 2006 and 2005 of $27,569 and $12,300, respectively, are included in accounts payable.

The fair market value adjustments (loss) to investments for 2006 and 2005 were $1,107 and $6,226, respectively.

See notes to basic financial statements.

1. ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Organization — Chicago Midway International Airport (Airport) is operated by the City of Chicago (City) Department of Aviation. The Airport is included in the City's reporting entity as an Enterprise Fund. The City is a member of the Chicago-Gary Regional Airport Authority, which was created in 1995 to address the air transportation needs of the Chicago-Northwest Indiana Region.

Basis of Accounting and Measurement Focus — The accounting policies of the Airport are based upon accounting principles generally accepted in the United States of America, as prescribed by the Government Accounting Standards Board (GASB). The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. The accounts of the Airport are reported using the flow of economic resources measurement focus.

The Airport uses the accrual basis of accounting, under which revenues are recognized when earned and expenses are recognized when incurred. Enterprise funds may elect to apply Financial Accounting Standards Board (FASB) pronouncements issued after November 30, 1989, provided that such standards are not in conflict with standards issued by the Governmental Accounting Standards Board (GASB). The Airport has elected not to apply FASB pronouncements issued after November 30, 1989.

Annual Appropriated Budget — The Airport has a legally adopted annual budget, which is not required to be reported.

Management's Use of Estimates — The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from the estimates.

Cash, Cash Equivalents and Investments — Cash, cash equivalents and investments generally are held with the City Treasurer as required by the Municipal Code of Chicago (Code). Interest earned on pooled investments is allocated to participating funds based upon their average combined cash and investment balances. Due to contractual agreements or legal restrictions, the cash and investments of certain funds are segregated and earn and receive interest directly.

The Code permits deposits only to City Council-approved depositories which must be regularly organized state or national banks and Federal and State savings and loan associations, located within the City, whose deposits are federally insured.

Investments authorized by the Code include interest-bearing general obligations of the City, the State of Illinois (State) and the U.S. Government; U.S. treasury bills and other non-interest-bearing general obligations of the U.S. Government purchased in the open market below face value; domestic money market mutual funds regulated by and in good standing with the Securities and Exchange Commission and tax anticipation warrants issued by the City. The City is prohibited by ordinance from investing in derivatives, as defined, without City Council approval.

The Airport values its investments at fair value or amortized cost as applicable. U.S. Government securities purchased at a price other than par with a maturity of less than one year are reported at amortized cost.

Repurchase agreements can be purchased only from banks and certain other institutions authorized to do business in the State. The City Treasurer requires that securities pledged to secure these agreements have a market value equal to the cost of the repurchase agreements plus accrued interest.

Investments generally may not have a maturity in excess of one year from the date of purchase. Certain other investment balances are held in accordance with the specific provisions of applicable bond ordinances.

Cash equivalents include certificates of deposit and other investments with maturities of three months or less when purchased.

***Accounts Receivable Allowance* —** Management has provided an allowance based on amounts recorded at year-end, which may be uncollectible.

***Revenues and Expenses* —** Revenues from landing fees, terminal area use charges, fueling system charges, parking revenue and concessions are reported as operating revenues. Transactions that are related to financing, investing and passenger facility charges are reported as nonoperating revenues. Salaries and wages, repair and maintenance, professional and engineering services and other expenses that relate to Airport operations are reported as operating expenses. Interest expense, passenger facility charge expenses and financing costs are reported as nonoperating expenses.

***Transactions with the City* —** The City's General Fund provides services to the Airport. The amounts allocated to the Airport for these services are treated as operating expenses and consist mainly of employee benefits, self-insured risks and administrative expenses.

***Other Assets* —** Funds expended for the Noise Mitigation Program are recorded as other assets and amortized over a 20-year useful life on a straight-line basis.

***Property and Facilities* —** Property and facilities are recorded at cost or, for donated assets, at market value at the date of acquisition. Expenditures greater than $5,000 for the acquisition, construction or equipping of capital projects, together with related design, architectural and engineering fees, are capitalized. Expenditures for vehicles and other movable equipment are expensed as incurred.

Depreciation and amortization are provided using the straight-line method and begin in the year following the year of acquisition or completion. Estimated useful lives are as follows:

Facilities and structures	40 years
Runways, aprons, tunnels, taxiways and paved roads	30 years
Other	10-30 years

***Net Assets* —** Net Assets comprise the net earnings from operating and nonoperating revenues, expenses and capital grants. Net assets are displayed in three components — invested in capital assets, net of related debt; restricted for debt service, capital projects, passenger facility charges, airport use agreement requirements and other assets; and unrestricted. Invested in capital assets, net of related debt consists of all capital assets, net of accumulated depreciation and reduced by outstanding debt net of debt service reserve and unspent proceeds. Restricted net assets consist of net assets for which constraints are placed thereon by external parties (such as lenders and grantors) and laws, regulations and enabling legislation. Unrestricted net assets consist of all other net assets not categorized as either of the above.

Employee Benefits — Employee benefits are granted for vacation and sick leave, workers' compensation and health care. Unused vacation leave is accrued and may be carried over for one year. Sick leave is accumulated at the rate of one day for each month worked, up to a maximum of 200 days. Severance of employment terminates all rights to receive compensation for any unused sick leave. Sick leave pay is not accrued. Employee benefit claims outstanding, including claims incurred but not reported, are estimated and recorded as liabilities. The Airport maintains insurance from a commercial carrier for workers' compensation claims. Settlements in each of the past three years have been less than insurance coverage maintained.

Employees are eligible to defer a portion of their salaries until future years under the City's deferred compensation plan created in accordance with Internal Revenue Code Section 457. The deferred compensation is not available to employees until termination, retirement, death or unforeseeable emergency. The plan is administered by third-party administrators who maintain the investment portfolio. The plan's assets have been placed in trust accounts with the plan administrators for the exclusive benefit of participants and their beneficiaries and are not considered assets of the City.

The City is subject to the State of Illinois Unemployment Compensation Act and has elected the reimbursing employer option for providing unemployment insurance benefits for eligible former employees. Under this option, the City reimburses the State for claims paid by the State.

Bond Issuance Costs, Bond Discounts and Refunding Transactions — Bond issuance costs and bond discounts are deferred and amortized over the life of the related debt, except in the case of refunding debt transactions where the amortization period is over the term of the refunding or refunded debt, whichever is shorter.

Capitalized Interest — Interest expense and income earned on construction bond proceeds are capitalized during construction on those capital projects paid for from the bond proceeds and are being amortized over the depreciable lives of the related assets on a straight-line basis.

Capital Grants — The Airport reports capital grants as revenue on the Statements of Revenues, Expenses and Changes in Net Assets. Capital Grants are on a reimbursement basis and revenues are recognized to the extent of allowable expenditures.

Revenue Recognition — Landing fees and terminal area use charges and fueling system charges are assessed to the various airlines throughout each fiscal year based on estimated rates. Such rates are designed to yield collections from airlines adequate to cover certain expenses and required debt service and fund deposits as determined under provisions of the Airport Use Agreement and Facilities Leases (Use Agreement). Incremental amounts due from the airlines arise when amounts assessed, based on the estimated rates used during the year, are less than actual expenses and required deposits for the year. Such incremental amounts due from airlines are included in accrued revenue. Incremental amounts due to the airlines arise when amounts assessed, based on the estimated rates used during the year, exceed actual expenses and required deposits for the year. Such incremental amounts due to airlines are included in deferred revenue.

Passenger Facility Charge (PFC) Revenue — For the years 2006 and 2005, PFCs of $3.00 per eligible enplaned passenger, less allowable airline administrative costs of $.11 per eligible enplaned passenger, were imposed by the Airport. Effective January 1, 2007, the Federal Aviation Administration (FAA) approved PFCs of $4.50 per eligible enplaned passenger, less allowable airline administrative costs of $.11 per eligible enplaned passenger. PFCs are available, subject to FAA regulation and approval, to finance specific eligible capital projects. The City reports PFC revenue as nonoperating revenue and related expenses as nonoperating expenses in conformity with industry practice.

2. RESTRICTED AND UNRESTRICTED CASH AND CASH EQUIVALENTS AND INVESTMENTS

Investments — As of December 31, 2006 the Airport had the following Investments ($ in thousands):

Investment Type	Investment Maturities (in Years)				
Airport Funds	Less Than 1	1-5	6-10	More Than 10	Fair Value
U.S. Treasuries	$ 1,575	$	$	$	$ 1,575
U.S. Agencies	268,248	5,895			274,143
Certificates of Deposits and Other Short-term	120,051				120,051
Subtotal	$ 389,874	$ 5,895	$	$	395,769
Share of City's pooled funds					1,633
Total					$ 397,402

As of December 31, 2005 the Airport had the following Investments ($ in thousands):

Investment Type	Investment Maturities (in Years)				
Airport Funds	Less Than 1	1-5	6-10	More Than 10	Fair Value
U.S. Agencies	$ 259,246	77,191			336,437
Certificates of Deposits and Other Short-term	152,225				152,225
Subtotal	$ 411,471	$ 77,191	$	$	488,662
Share of City's pooled funds					929
Total					$ 489,591

Interest Rate Risk — As a means of limiting its exposure to fair value losses arising from rising interest rates, the City's investment policy requires that investments generally may not have a maturity date in excess of two years from the date of purchase. Certain other investments are held in accordance with the specific provisions of applicable ordinances.

Credit Risk — The Code limits investments in commercial paper to banks whose senior obligations are rated in the top two rating categories by at least two national rating agencies and who are required to maintain such rating during the term of such investment. The Code also limits investments to domestic money market mutual funds regulated by, and in good standing with, the Securities and Exchange Commission. Certificates of Deposit are also limited by the Code to national banks which provide collateral of at least 110 percent by marketable U.S. government securities marked to market at least monthly; or secured by a corporate surety bond issued by an insurance company licensed to do business in Illinois and having a claims-paying rating in the top rating category, as rated by a nationally recognized statistical rating organization maintaining such rating during the term of such investment. The following schedule summarizes the Airport's exposure to credit risk ($ in thousands):

Quality Rating	2006	2005
Aaa/AAA	$ 395,769	$ 406,842
Not Rated		81,820
Total Funds	$ 395,769	$ 488,662

The Airport participates in the City's pooled cash and investments account, which includes amounts from other City funds and is maintained by the City Treasurer. Individual cash or investments are not specifically identifiable to any participant in the pool. The Treasurer's pooled fund is included in the City's Comprehensive Annual Financial Report.

Custodial Credit Risk — Cash and Certificates of Deposit — This is the risk that in the event of a bank failure, the City's deposits may not be returned. The City's Investment Policy states that in order to protect the City public fund deposits, depository institutions are to maintain collateral pledges on City deposits during the term of the deposit of at least 110 percent of marketable U.S. government, or approved securities or surety bonds, issued by top-rated insurers. Collateral is required as security whenever deposits exceed the insured limits of the FDIC. Cash and certificates of deposit with the City's various municipal depositories were $214.9 million and $255.5 million at December 31, 2006 and 2005, respectively, and the related bank balance (including certificates of deposit) was $248.4 million and $169.6 million at December 31, 2006 and 2005, respectively. Of the bank balance, $247.6 million and $168.4 million or 99.7% and 99.3% at December 31, 2006 and 2005, respectively, were either insured or collateralized with securities held by City agents in the City's name. The remainder was uninsured and uncollateralized.

The following schedule summarizes the investments reported in the basic financial statements ($ in thousands):

	2006	2005
Per Note 2:		
Investments — Airport	$ 395,769	$ 488,662
Investments — City Treasurer Pooled Fund	1,633	929
	$ 397,402	$ 489,591
Per Financial Statements:		
Restricted Investments	$ 159,831	$ 201,958
Unrestricted Investments	28,911	15,232
Investments included as cash and cash equivalents on the Statements of Net Assets	208,660	272,401
	$ 397,402	$ 489,591

3. RESTRICTED ASSETS

There are various limitations and restrictions contained in the Master Indenture of Trust securing the Chicago Midway Airport Revenue Bonds (First Lien Master Indenture) and the Master Indenture of Trust securing the Chicago Midway Airport Second Lien Obligation (Second Lien Master Indenture) and together with the First Lien Master Indenture (Master Indentures), the Use Agreement and Federal regulations contain various limitations and restrictions which, among other things, require the creation and maintenance of separate accounts, certain of which must be held by a trustee and into which required deposits are made by the Airport on a periodic basis to fund construction, debt retirement, operation and maintenance and contingencies.

Restricted cash, cash equivalents and investment balances in accordance with the Master Indenture requirements are as follows ($ in thousands):

	December 31	
Account	2006	2005
Construction	$ 123,343	$ 190,825
Capitalized interest	3,212	12,357
Debt service	47,067	33,500
Debt service reserve	66,363	66,363
Operation and maintenance reserve	16,884	16,081
Repair and replacement	4,080	3,859
Emergency reserve	331	323
Special projects	17,693	22,432
Other	30,984	34,799
Subtotal—Master Indentures and Use Agreement accounts	309,957	380,539
Passenger facility charges	25,581	32,997
Total	$ 335,538	$ 413,536

Construction and capitalized interest accounts, which are funded with bond proceeds, are restricted to pay authorized capital improvements and related interest costs during construction.

Required deposits are made by the Airport from revenues collected after funding deposits to an operation and maintenance account in the following priority on a monthly basis:

- The debt service account is restricted to the payment of debt service.

- The operation and maintenance reserve account is restricted to make loans to the operation and maintenance account, as needed, which are to be repaid as the funds become available.

The working capital account, which is recorded in unrestricted cash and cash equivalents, had a balance of $1,810 and $1,810 at December 31, 2006 and 2005, respectively.

The debt service reserve account requirement was funded upon issuance of the Series 1994 bonds with a surety bond, and upon issuance of the Series 1996 bonds and Series 1998 first and second lien bonds with a cash deposit. The debt service reserve account is restricted to the payment of debt service in the event that the balance in the debt service account is insufficient.

The junior lien obligation debt service fund is required to be established to record all transactions associated with junior lien obligations per the First Lien Master Indenture.

The repair and replacement account must be used for paying the cost of maintenance expenditures, such as costs incurred for major repairs, renewals and replacements at the Airport whether caused by normal wear and tear or by unusual and extraordinary occurrences.

The emergency reserve account is restricted to make payments for certain purposes, including terminal area use charges, landing fees and certain other charges that are deemed uncollectible and also for any judgments or settlements against the Airport.

The City has entered into arbitrage agreements under which the City has agreed to comply with certain requirements of the Internal Revenue Code of 1986, as amended, in order to maintain the exclusion of the interest on the Bonds from the gross income of the recipients thereof for Federal income tax purposes. The rebate account relating to each series of the Bonds has been established to account for any liability of the City to make arbitrage rebate payments to the Federal government relating to such series of Bonds.

The special projects account is restricted to make payments of certain airline-approved capital expenditures.

The passenger facility charge account is restricted to fund eligible, approved PFC projects.

Other funds include the Federal and State Grant Funds, the security for payment fund and the Airport development fund.

At December 31, 2006 and 2005 the Airport was in compliance with the funding requirements and restrictions as stated in the Master Indentures.

4. LONG-TERM DEBT

At December 31, 2006 and 2005, long-term debt consisted of the following ($ in thousands):

	2006	2005
First lien bonds:		
$148,820 Series 1996 A Chicago Midway Airport Revenue Bonds, issued November 7, 1996, due through 2029, interest at 4.8% — 6.0%	$ 67,840	$ 70,650
$105,220 Series 1996 B Chicago Midway Airport Revenue Bonds, issued November 7, 1996, due through 2029, interest at 4.9% — 6.5%	93,645	95,565
$397,715 Series 1998 A, B, and C Chicago Midway Airport Revenue Bonds, issued September 10, 1998, due through 2035, interest at 4.3% — 5.5%	392,060	394,670
$295,855 Series 2001 A and B Chicago Midway Airport Revenue Bonds, issued September 13, 2001, due through 2031, interest at 5.0% — 5.5%	295,855	295,855
Subtotal first lien bonds	849,400	856,740
Second lien bonds:		
$171,000 Series 1998 A and B Chicago Midway Airport Second Lien Revenue Bonds, issued September 16, 1998, due through 2029, variable floating interest rate (4.04 % at December 31, 2006)	171,000	171,000
$22,000 Series 2002 A Chicago Midway Airport Second Lien Revenue Bonds, issued February 13, 2002, due through 2021, variable floating interest rate (5.37 % at December 31, 2006)	22,000	22,000
$77,565 Series 2004 A and B Chicago Midway Airport Second Lien Revenue Bonds, issued December 14, 2004, due through 2024, interest rate at 3.20% — 5.00 %	77,565	77,565
$152,150 Series 2004 C and D Chicago Midway Airport Second Lien Revenue Bonds, issued December 14, 2004, due through 2035, interest rate at 4.174 %	152,150	152,150
Subtotal second lien bonds	422,715	422,715
Commercial Paper Notes:		
$10,269 Series A Commercial Paper Notes oustanding at December 31, 2006, due through 2007; interest at 3.6%	10,269	
Total Revenue Bonds and Notes	1,282,384	1,279,455
Unamortized discount	(10,197)	(10,681)
Unamortized deferred loss on bond refunding	(8,442)	(8,957)
	1,263,745	1,259,817
Current portion	(13,620)	(7,340)
Total long-term revenue bonds payable	$ 1,250,125	$ 1,252,477

During the years ended December 31, 2006 and 2005, long-term debt changed as follows ($ in thousands):

	Balance January 1, 2006	Additions	Reductions	Balance December 31, 2006	Due Within One Year
Revenue bonds	$1,279,455	$	$ (7,340)	$1,272,115	$13,620
Unamortized discount	(10,681)		484	(10,197)	
Deferred loss on refunding	(8,957)		515	(8,442)	
Total revenue bonds	1,259,817		(6,341)	1,253,476	13,620
Commercial Paper		10,269		10,269	
Total Long-term debt	$1,259,817	$ 10,269	$ (6,341)	$1,263,745	$13,620

	Balance January 1, 2005	Additions	Reductions	Balance December 31, 2005	Due Within One Year
Revenue bonds	$1,286,880	$	$ (7,425)	$1,279,455	$ 7,340
Unamortized discount	(11,288)		607	(10,681)	
Deferred loss on refunding	(10,107)		1,150	(8,957)	
Total revenue bonds	1,265,485		(5,668)	1,259,817	7,340
Commercial Paper					
Total Long-term debt	$1,265,485	$	$ (5,668)	$1,259,817	$ 7,340

Interest expense capitalized for 2006 and 2005 totaled $10.3 million and $14.9 million, respectively. Interest income capitalized for 2006 and 2005 totaled $5.7 million and $6.3 million, respectively. Interest expense includes amortization of the deferred loss on bond refunding for 2006 and 2005 of $.52 million and $1.2 million, respectively, and amortization of bond discount for 2006 and 2005 of $.48 million and $.61 million, respectively.

Issuance of Debt — Chicago Midway International Airport Commercial Paper Notes, Series A ($100.0 million maximum aggregated authorized) outstanding at December 31, 2006 were $10.3 million having an interest rate of 3.6 percent with a maturity date of June 6, 2007. Note proceeds may be used to finance portions of the costs of authorized airport projects and to repay the expenses of issuing the notes. An irrevocable letter of credit ($111.3 million) provides for the timely payment of principal and interest on the notes until July 12, 2009. Amounts paid by drawing on the letter of credit shall be reimbursed by the Airport on said day paid; any amounts not reimbursed shall constitute an advance and will bear interest at the greater of the most recent prime rate or the Federal Funds rate plus 0.5 percent (Base Rate). Advances outstanding greater than sixty days will bear interest at the Base Rate plus 1.0 percent beginning on the sixty-first day after such advance is made. At December 31, 2006, there were no outstanding letter of credit advances.

Debt Redemption — Following is a schedule of debt service requirements to maturity of the first lien bonds ($ in thousands):

Year Ending December 31	Principal	Interest	Total
2007	$ 13,620	$ 44,098	$ 57,718
2008	14,505	43,350	57,855
2009	15,260	42,567	57,827
2010	12,575	41,834	54,409
2011	13,235	41,154	54,389
2012-2016	77,735	193,853	271,588
2017-2021	101,415	169,537	270,952
2022-2026	165,330	135,384	300,714
2027-2031	249,400	82,217	331,617
2032-2035	186,325	19,535	205,860
Total	$ 849,400	$ 813,529	$ 1,662,929

Following is a schedule of debt service requirements to maturity of the second lien bonds. For issues with variable rates, interest is imputed at the percent rate effective at December 31, 2006 ($ in thousands).

Year Ending December 31	Principal	Interest	Total
2007	$	$ 17,713	$ 17,713
2008		17,713	17,713
2009		17,713	17,713
2010	3,475	17,638	21,113
2011	4,495	17,455	21,950
2012-2016	45,900	81,860	127,760
2017-2021	79,945	69,735	149,680
2022-2026	41,675	52,690	94,365
2027-2031	209,600	28,304	237,904
2032-2035	37,625	2,962	40,587
Total	$ 422,715	$ 323,783	$ 746,498

The Airport's second lien variable rate bonds may bear interest from time to time at a flexible rate, a daily rate, a weekly rate, an adjustable long rate or the fixed rate as determined from time to time by the remarketing agent, in consultation with the City. At December 31, 2006 the Series 1998 bonds were in a daily interest mode and the Series 2002 bonds were in a weekly rate interest mode. An irrevocable letter of credit ($172.6 million) provides for the timely payment of principal and interest on the Series 1998 bonds until March 3, 2008 ($86.3 million) and September 15, 2008 ($86.3 million). An irrevocable letter of credit ($22.3 million) provides for the timely payment of principal and interest on the Series 2002 bonds until February 13, 2009. At December 31, 2006, there were no outstanding letter of credit advances.

The Series A Commercial Paper Notes outstanding at December 31, 2006 of $10.3 million will be refunded with new commercial paper notes as the existing notes mature. The Airport plans to refinance these notes with future bonds.

Pay-Fixed, Receive-Variable Interest Rate Swaps — In order to protect against the potential of rising interest rates, the Airport entered into two separate pay-fixed, receive-variable interest rate swaps at a cost less than what the Airport would have paid to issue fixed-rate debt ($ in thousands).

Associated Bond Issue	Notional Amounts	Effective Date	Fixed Rate Paid	Variable Rate Received	Fair Value	Swap Termination Date	Counterparty Credit Rating
Series 2004 C Bonds	$ 91,290	12/14/2004	4.174%	BMA	$ (1,836)	1/1/2035	Aa3/AA-
Series 2004 D Bonds	60,860	12/14/2004	4.174%	BMA	$ (1,262)	1/1/2035	Aaa/AAA
Total	$ 152,150				$ (3,098)		

Terms, Fair Values and Credit Risk **—** The terms, including the fair value and credit ratings of the outstanding swaps as of December 31, 2006, are as follows. The notional amounts of the swaps match the principal amounts of the associated debt. The City's swap agreements contained scheduled reductions to outstanding notional amounts that are expected to approximately follow scheduled or anticipated reductions in the associated "bonds payable" category.

Fair Value **—** As per industry convention, the fair value of the Airport's outstanding swaps were estimated using the zero-coupon method. This method calculates the future net settlement payment required by the swap, assuming that the forward rates implied the yield curve correctly anticipate future spot rates. These payments are then discounted using the spot rates implied by the current yield curve for hypothetical zero-coupon bonds due on the date of each future net settlement of the swap. Because interest rates declined subsequent to the date of execution the Airport's swaps had negative values.

Credit Risk **—** The Airport is exposed to credit risk (counterparty risk) through the counterparties with which it enters into agreements. If minimum credit rating requirements are not maintained, the counterparty is required to post collateral to a third party. This protects the Airport by mitigating the credit risk, and therefore the ability to pay a termination payment, inherent in a swap. Collateral on all swaps is to be in the form of cash or Eligible Collateral held by a third-party custodian. Upon credit events, the swaps also allow transfers, credit support and termination if the counterparty is unable to meet the said credit requirements.

Basis Risk **—** Basis risk refers to the mismatch between the variable rate payments received on a swap contract and the interest payment actually owed on the bonds. The two significant components driving this risk are credit and BMA ratios. Credit may create basis risk because the Airport's bonds may trade differently then the swap index as a result of a credit change in the Airport. BMA ratios (or spreads) may create basis risk if BMA swaps of the Airport's bonds trade higher then the BMA received on the swap. This can occur due to many factors including, without limitations, changes in marginal tax rates, tax-exempt status of bonds and supply and demand for variable rate bonds. The Airport is exposed to basis risk on the swaps if the rate paid on the bonds is higher than the rate received. The Airport is liable for the difference. The difference would need to be available on the debt service payment date and would add additional underlying cost to the transaction.

***Tax Risk* —** The swap exposes the Airport to tax risk or a permanent mismatch (shortfall) between the floating rate received on the swap and the variable rate paid on the underlying variable-rate bonds due to tax law changes such that the Federal or State tax exception of municipal debt is eliminated or its value reduced. There have been no tax law changes since the execution of this swap agreement.

***Termination Risk* —** The risk that the swap could be terminated as a result of certain events, including a ratings downgrade for the issuer or swap counterparty, covenant violation, bankruptcy, payment default or other defined events of default. Termination of a swap may result in a payment made by the issuer or to the issuer depending upon the market at the time of termination.

***Swap Payments and Associated Debt* —** Bonds maturing and interest payable January 1, 2006 have been excluded because funds for their payment have been provided for. As of December 31, 2006 debt service requirements for the Airport's outstanding variable-rate debt and net swap payments, assuming current interest rates remain the same, for their term are as follows ($ in thousands):

Year Ending December 31	Variable-Rate Bonds Principal	Variable-Rate Bonds Interest	Interest Rate Swaps–Net	Total
2007	$	$ 5,940	$ 411	$ 6,351
2008		5,940	411	6,351
2009		5,940	411	6,351
2010		5,940	411	6,351
2011		5,940	411	6,351
2012-2016	19,950	27,816	1,924	49,690
2017-2021	24,925	23,179	1,893	49,997
2022-2026	31,050	18,017	1,246	50,313
2027-2031	38,600	10,749	1,277	50,626
2032-2035	37,625	3,019	209	40,853
	$ 152,150	$ 112,480	$ 8,604	$ 273,234

***No-commitment Debt* —** Bonds payable on no-commitment debt are not included in the accompanying financial statements because the City has no obligation to provide for their repayment, which is the responsibility of the borrowing entities.

Option on Interest Rate Swap Agreement — Effective October 27, 1999 the Airport entered into an Option on Interest Rate Swap Agreement (the Option) in connection with $397.7 million (the Notional Amount) of Chicago Midway Airport Series Revenue Bonds 1998 A, 1998 B and 1998 C. Pursuant to the Option, the Airport received a premium of $23.0 million that was recorded as a deferred gain. As a synthetic refunding of the bonds, this premium represents the risk-adjusted, present value savings of a refunding, without issuing refunding bonds. The deferred gain is amortized over the term of the agreement (30 years). The buyer may exercise the Option if the daily weighted average of the Municipal Swap Index for the 180 days on the day prior to the exercise date is greater than 7.5 percent. If the Option is exercised, the Airport will owe interest calculated on a floating rate equal to the Municipal Swap Index plus 25 basis points (the Spread) to the buyer of the swap. In return, the buyer will owe the Airport interest calculated on a fixed rate of 5.1 percent. The Notional Amount is not exchanged; it is only the basis on which interest payments are calculated. The Airport's floating rate is capped at 15 percent. The Airport continues to pay interest to the bondholders at the fixed rate stated in the bonds. However, during the term of the swap agreement, the Airport will effectively pay a variable rate on the bonds. The Option increases the Airport's exposure to variable interest rates. The debt service requirements to maturity for these bonds (presented in this note) are based on the fixed rate stated in the Bonds. The Airport will be exposed to paying fixed rates if the buyer to the swap defaults or if the swap is terminated. The Airport or the counter-party may terminate the Option if the other party fails to perform under the terms of the agreement. A termination of the swap agreement may result in the Airport making or receiving a termination payment. As of December 31, 2006 the Option had a negative fair market value of $8.1 million. The Option was not exercised during 2006.

5. CHANGES IN CAPITAL ASSETS

During the years ended December 31, 2006 and 2005 capital assets changed as follows ($ in thousands):

	Balance January 1, 2006	Additions	Disposals and Transfers	Balance December 31, 2006
Capital assets not depreciated:				
Land	$ 100,903	$ 1,716	$	$ 102,619
Construction in progress	114,906	87,165	(113,463)	88,608
Total capital assets not depreciated	215,809	88,881	(113,463)	191,227
Capital assets depreciated:				
Buildings and other facilities	1,044,383	113,462		1,157,845
Less accumulated depreciation for:				
Buildings and other facilities	(145,300)	(32,633)		(177,933)
Total capital assets depreciated–net	899,083	80,829		979,912
Total property and facilities–net	$1,114,892	$169,710	$(113,463)	$1,171,139

	Balance January 1, 2005	Additions	Disposals and Transfers	Balance December 31, 2005
Capital assets not depreciated:				
Land	$ 100,840	$ 63	$	$ 100,903
Construction in progress	87,678	64,256	(37,028)	114,906
Total capital assets not depreciated	188,518	64,319	(37,028)	215,809
Capital assets depreciated:				
Buildings and other facilities	1,007,355	37,028		1,044,383
Less accumulated depreciation for:				
Buildings and other facilities	(113,599)	(31,701)		(145,300)
Total capital assets depreciated–net	893,756	5,327		899,083
Total property and facilities–net	$1,082,274	$ 69,646	$ (37,028)	$1,114,892

6. LEASING ARRANGEMENTS WITH TENANTS

Most of the Airport's land, buildings and terminal space are leased under operating lease agreements to airlines and other tenants. The following is a schedule of the minimum future rental income on noncancelable operating leases as of December 31, 2006 ($ in thousands):

Year Ending December 31	Amount
2007	$ 11,412
2008	11,290
2009	10,759
2010	10,616
2011	10,616
2012-2014	8,565
Total	$ 63,258

Contingent rentals that may be received under certain leases, based on the tenants' revenues, are not included in minimum future rental income.

Rental income, consisting of all rental and concession revenues except aircraft parking fees and turns and automobile parking, amounted to $60.9 million and $55.6 million in 2006 and 2005, respectively. Contingent rentals included in the totals were approximately $26.1 million and $23.1 million for 2006 and 2005, respectively.

7. PENSION PLANS

Eligible Airport employees participate in one of two of the City's single-employer defined benefit pension plans. These plans are the Municipal Employees' and the Laborers' and Retirement Board Employees' Annuity and Benefit Funds. These plans are administered by individual retirement boards represented by elected and appointed officials. Each plan issues publicly available financial statements, for each of the pension plans, which may be obtained at the respective fund's office.

The funds provide retirement and death and disability benefits as established by State law. Benefits generally vest after 20 years of credited service. Employees who retire at or after age 55 with at least 10 years of credited service qualify to receive a money purchase annuity and those with more than 20 years of credited service qualify to receive a minimum formula annuity. The annuity is computed by multiplying the final average salary by a minimum of 2.4 percent per year of credited service. The final average salary is the employee's highest average annual salary for any four consecutive years within the last 10 years of credited service.

Participating employees contribute 8.5 percent of their salary to these funds as required by State law. By law, the City's contributions are based on the amounts contributed by the employees. Financing of the City's contribution is through a separate property tax levy and the personal property replacement tax. The Midway Fund reimburses the City's General Fund for the estimated pension cost applicable to the covered payroll of Midway Fund employees. These reimbursements recorded as expenses of the Midway Fund were $2.7 million in 2006 and $2.5 million in 2005. The annual pension costs are determined using the entry age normal actuarial cost method and the level dollar amortization method.

The funding policy mandated by State law requires City contributions at statutorily, not actuarially, determined rates. The rates are expressed as multiples of employee contributions. These contributions equal employee contributions made in the calendar year two years prior to the current year, multiplied by the statutory rates. The statutory rates in effect for the City's contributions made during the years ended December 31, 2006, 2005 and 2004 were 1.25 for the Municipal Employees' and 1.00 for the Laborers' and Retirement Board Employees' Annuity and Benefit Funds, respectively. The City has made the required contributions under State law.

The following table as of December 31, 2006 assists readers in assessing each fund's progress in accumulating sufficient assets to pay benefits when due. The three-year historical information for each annuity and benefit fund will be accumulated over the next year ($ in thousands):

	Annual Pension Cost	Annual Pension Cost Contributed	Required Contribution	Required Contributions Contributed	Net Pension Assets
Municipal Employees':					
2004	$197,393	78.0 %	$ 198,199	77.7 %	$ 299,415
2005	284,587	54.5	285,291	54.4	169,895
2006	325,514	48.3	325,914	48.3	1,442
Laborers':					
2004	$ 7,860	0.6	$ 8,513	2.4	$ 270,223
2005	12,138	0.3	12,774	0.3	258,125
2006	20,536	0.5	17,600	0.6	237,696

The pension benefits information pertaining expressly to Airport employees is not available. Accordingly, no amounts have been recorded in the accompanying financial statements for the net pension assets of these plans.

In addition to providing pension benefits, under State law, the City provides certain health benefits to employees who retire from the City based upon their participation in the City's pension plans. Substantially all employees who qualify as Municipal Employees' or Laborers' pension plan participants older than age 55 with at least 20 years of service may become eligible for postemployment benefits if they eventually become annuitants. Health benefits include basic benefits for annuitants and supplemental benefits for Medicare-eligible annuitants. Currently, the City does not segregate benefit payments to annuitants by fund. The cost of health benefits is recognized as claims are reported on and funded on a pay-as-you-go basis. The total cost to the City for providing health benefits to approximately 24,374 and 24,507 annuitants and their dependents was approximately $79.3 million and $78.3 million in 2006 and 2005, respectively.

8. RELATED-PARTY TRANSACTIONS

Included in operating expenses are reimbursements to the General Fund of the City for services provided by other City departments, employee fringe benefits and self-insured risks. Such reimbursements were $11.4 million and $10.1 million in 2006 and 2005, respectively.

9. COMMITMENTS AND CONTINGENCIES

The Airport has certain contingent liabilities resulting from litigation, claims and commitments incident to the ordinary course of business. Management expects that the final resolution of these contingencies will not have a material adverse effect on the financial position or results of operations of the Airport.

The Airport provides employee health benefits under a self-insurance program, administered by the City. Such claims outstanding, including claims incurred but not reported, are estimated and recorded as liabilities in the financial statements.

Uninsured claim expenditures and liabilities are reported when it is probable that a loss has occurred and the amount of that loss can be reasonably estimated. These losses include an estimate of claims that have been incurred but not reported. Changes in the claims liability amount for the years ended December 31, 2006 and 2005 are as follows ($ in thousands):

	2006	2005
Beginning balance—January 1	$ 317	$ 311
Total claims incurred (expenditures)	2,818	2,413
Claims paid	(2,871)	(2,407)
Claims liability—December 31	$ 264	$ 317

The City purchases annuity contracts from commercial insurers to satisfy certain liabilities. The City renewed its property insurance for the City's Airports, effective January 1, 2002, at a limit of $2.5 billion, which the City's insurance broker advised was the highest amount commercially available at the time. Claims have not exceeded the purchased insurance coverage in the past three years. Accordingly, no liability is reported for those claims. Property and casualty risks for the Airport are transferred to commercial insurers.

At December 31, 2006 and 2005, the Airport had commitments in the amount of approximately $53.2 million and $32.4 million, respectively, in connection with contracts entered into for construction projects.

10. SUBSEQUENT EVENTS

The City is evaluating the sale of a long-term lease to operate Midway International Airport. The City intends to pursue such a transaction in accordance with the provisions of 49 U.S.C — 47134 relating to a pilot program for the private ownership of airports (the Airports Privatization Act). It is not possible to predict whether or when any such transaction will occur.

NOTES TO DEBT SERVICE COVERAGE CALCULATIONS
YEARS ENDED DECEMBER 31, 2006 AND 2005

1. RATE COVENANT

The Master Indenture of Trust (Master Indenture) securing the Chicago Midway Airport Revenue Bonds (Bonds) requires that revenues, together with other available moneys deposited with the trustee and any cash balance held in the Revenue Fund on the first day of the calendar year not then required to be deposited in any fund or account, will be at least sufficient (i) to provide for the payment of operation and maintenance expenses for the fiscal year, and (ii) to provide for the greater of (a) the amounts needed to make required deposits into the Debt Service Fund, the Operating and Maintenance Reserve Account, the Working Capital Account, the Debt Service Reserve Fund, the Junior Lien Obligation Debt Service Fund, the Repair and Replacement Fund and the Special Project Fund, and (b) an amount not less than 125 percent of the aggregate debt service for the bond year commencing during such fiscal year.

2. REVENUE FUND BALANCE

The Revenue Fund Balance includes all cash, cash equivalents and investments which were available to the Revenue Fund to satisfy the coverage requirement under the terms of the Master Indenture.

CHICAGO MIDWAY AIRPORT SECOND LIEN REVENUE BONDS
NOTES TO DEBT SERVICE COVERAGE CALCULATIONS
YEARS ENDED DECEMBER 31, 2006 AND 2005

1. RATE COVENANT

The Master Indenture of Trust (Master Indenture) securing the Chicago Midway Airport Second Lien Revenue Bonds (Bonds) requires that revenues, together with other available moneys deposited with the First Lien Trustee or the Second Lien Trustee and any cash balance held in the First Lien Revenue Fund or the Second Lien Revenue Fund on the first day of the fiscal year not then required to be deposited in any fund or account under the First Lien Indenture or the Second Lien Indenture, will be at least sufficient (a) to provide for the payment of operation and maintenance expenses for the fiscal year, and (b) to provide for: (i) the greater of the amounts needed to make the deposits required under the First Lien Indenture during such calendar year into the First Lien Debt Service Fund, the O&M Reserve Account, the Working Capital Account, the First Lien Debt Service Reserve Fund, the Junior Lien Obligation Debt Service Fund, the Repair and Replacement Fund and the Special Project Fund, or an amount not less than 125 percent of the Aggregate First Lien Debt Service for the Bond Year commencing during such fiscal year, reduced by any amount held in any capitalized interest account for disbursement during such Bond Year to pay interest on First Lien Bonds; or (ii) the greater of the amounts needed to make the deposits required under the First Lien Indenture during such fiscal year into the First Lien Debt Service Fund, the O&M Reserve Account, the Working Capital Account, the First Lien Debt Service Reserve Fund, the Junior Lien Obligation Debt Service Fund, the Repair and Replacement Fund and the Special Project Fund, or an amount not less than 110 percent of the sum of Aggregate First Lien Debt Service and Aggregate Second Lien Debt Service for the Bond Year commencing during such fiscal year, reduced by (a) any amount held in any capitalized interest account for disbursement during such Bond Year to pay interest on any First Lien Bonds, and (b) any amount held in any capitalized interest account established pursuant to a Supplemental Indenture for disbursement during such Bond Year to pay interest on Second Lien Obligations.

2. REVENUE FUND BALANCE

The Revenue Fund Balance includes all cash, cash equivalents and investments which were available to the Revenue Fund to satisfy the coverage requirement under the terms of the Master Indenture.
